Veena Avadhanam, Investment Director

2015 was a phenomenal year for Mumbai Angels where we saw many exciting start-ups from a wide range of sectors. We closed 11 investments in the year, with 6 others near completion. The startups we invested in ranged from delivery, food tech and fashion to nearly half a dozen enterprise focused SaaS\ cloud startups.

One of the highlights of this record number of investments is that many of these deals came as referrals from our members and Eco-system partners. We appreciate your continued support in helping us build a great portfolio. We also made great strides in standardizing our processes so that the course of a deal is more predictable and efficient.
